"Kaemark furniture has been in every Xenon Academy for the last 32 years. Their staff are experts in cosmetology equipment and their products are built to last in a school environment. We've installed custom solutions as well as stocked equipment in all our locations. Kaemark service is the biggest reason we keep coming back. They've always taken care of us both before and after the sale."

-Jackie Hornig, Xenon Academy.

# ABOUT KAEMARK & SCHOOLS

## 45 YEARS OF CARING

The owners and employees of Kaemark are proud of our commitment to Cosmetology Schools and their success. Schools are unique in their needs but all require specialized knowledge to serve. Our sales staff has over 150 years of combined experience helping schools open, remodel and enjoy success. We know successful salons and the industry in general depend on well designed and furnished cosmetology schools built for success.

## OUR STORY

Gilbert and Dorothy Krause, descendants of the early German settlers who came to Giddings, Texas (60 miles east of Austin) in the late 1800's founded Kaemark Salon Furnishings in 1972. Mr. Krause established Kaemark's reputation for durability and caring customer service; and in 2000 sold Kaemark to Howard Owen, Jeff Owen and Ben Peterson. With their continued leadership and focus on exceeding customer expectations, Kaemark has become the largest U.S. manufacturer of beauty salon equipment and piece goods that are available.

Kaemark is committed to innovative ways of serving an ever-changing marketplace. With more focused product offerings, and precision salon furnishings that will create a great salon experience for your staff, your students, and the clients on your clinic floor.

## SPACE PLANNING

Kaemark will help you maximize your location's square footage by providing you a road map that your contractors & plumbers can work from. During the space planning process, you can meet with our industry leading design team to discuss your vision for your school. Using the dimensions and design elements needed for your school, we utilize the latest in design technology to create your custom floor plan and furnishings.

Our designers understand the balance between your school's educational environment and the budgets that you adhere to. During the design process, each of our experts will assist you with choices that are best suited to your individual needs and design elements based on your vision and budget.

## AMERICAN MADE

Kaemark's American manufacturing facility is centrally located in the heart of Texas. From thoughtfully building your salon furnishings, to packaging them for delivery to your location, your Kaemark American-made products are touched by the hands of over 80 of our dedicated manufacturing employees. Each item coming from our central Texas manufacturing facility are made to your design and requirements.

# VISIT OUR SHOWROOM

## SHOWROOM

Shopping for salon furniture can be a challenging process. At Kaemark, we've addressed this challenge with the help of our design studio and salon furniture showroom. Our 10,000 square foot showroom provides a stress and pressure-free environment for you to see, touch, and feel everything we have to offer. Come visit us in the largest salon equipment factory showroom in the USA, conveniently located just 1 hour from the Austin, TX airport.

## WHY VISIT THE SHOWROOM IN CENTRAL TEXAS?

- 10,000 sq. ft. of space filled with salon, barber and spa equipment
- Meet with our leading product experts
- Test and feel the products
- Meet with the designers
- See our factory where our American-made products are produced
- Meet the artisans building your school's equipment
- Test all levels of chairs to distinguish import vs American-Made
- Purchase on location
- Explore promotional equipment to meet your budget
- Shop our wide array of partner brands

## FLY & BUY

We understand sometimes it may be difficult to plan out a whole trip to visit our Giddings salon furniture showroom. In order to show our appreciation for your journey to see us, hang on to your airline ticket and we'll add a credit to your purchase. We're only a short, one-hour drive from the Austin-Bergstrom International Airport.

"The customer service team at Kaemark is hands down the best in the business. Don't miss an opportunity to take a tour of their stunning showroom - helps to inspire ideas for your salon dreams!"

- Jamie Gibeau

# WET STATIONS

A photograph of a dental clinic's wet station area. The room is brightly lit with recessed ceiling lights. It features a row of dental treatment stations. Each station consists of a grey upholstered chair with a white headrest, a black washbasin with a chrome faucet, and a light-colored wood-grain cabinet with a white countertop. The chairs are mounted on a black base with a silver footrest. The floor is a light, polished surface. The overall aesthetic is clean and professional.

"My salon studio is small, from experience I knew for a fact that my chairs would be a focal point and they'd have to be not only comfortable but durable. I visited the @kaemarksalon showroom in #GiddingsTx and I saw these bases on display. I immediately was drawn to them and knew it was what I wanted!"

-@KRAZY4HAIR

# RETAIL DISPLAYS

The image shows a clean, modern retail display for beauty products. The background consists of a white wall with several horizontal shelves. Each shelf is filled with a variety of beauty items, including bottles, boxes, and containers, arranged in an organized and aesthetically pleasing manner. The products are primarily in neutral tones like white, beige, and light blue, with some darker accents. In the foreground, a white, tufted ottoman with a simple metal frame sits on a light-colored wooden floor. The overall atmosphere is bright and minimalist.

# SPA & ESTHETICS

A row of modern, dark-colored spa treatment chairs is arranged in a well-lit room. The chairs have a quilted backrest and a wooden base. In the background, there is a large mirror on the wall and a window with light-colored curtains. The overall atmosphere is clean and professional.

### CS-BRAVO-LE-2

#### BRAVO LE SMOKE

- Magnetic jet system is sanitary & quiet
- Contoured footrest with flip-up leg support

# TERMS & CONDITIONS

## PAYMENT

To place an order, a 50% down payment of the total cost is required. Payments are accepted by one of the following methods: ACH, credit card, lease, pre-authorized check, or financing agreement. Credit card payments require an additional 2.5% for processing fees. (Visa, MasterCard, Discover & American Express) The balance is due in full prior to arranging for shipping. Deposits are not refundable once material purchasing and production begins. Unless specified, installation is not included in the quote. If you would like installation, check with your account manager for a quote.

Credit Card Chargebacks. A credit card charge back is treated as a breach of contract and Kaemark will pursue all remedies in law and equity including its attorneys' fees in connection with the collection of the amount owing.

Returned Check/ACH. Purchaser is responsible for all fees associated with the returned check or ACH. Additionally, if the funds are not paid within 3 business days, the returned check or ACH will be treated as a breach of contract and Kaemark will pursue all remedies in law and equity including its attorneys' fees in connection with the collection of the amount owing.

## SALES TAX

Tax is an estimate and may change at final invoice due to possible taxation of freight, municipal tax changes etc. Should Kaemark's calculation be incorrect, purchaser is responsible for any additional taxes or fees charged in connection with the order. Upon notification that the proper amount of tax was not charged, Kaemark will send an invoice (net 10 days) to purchaser for the additional tax money due.

## DELIVERY & FREIGHT

Kaemark strives for the timely delivery of products. In many cases, Kaemark is dependent upon vendors and freight carriers to produce and deliver the products in good condition and in a timely manner. Kaemark is not liable for any damages, monetary or otherwise, due to production delays, freight delays, re-routing, or freight damages. All sales are FOB Giddings, TX.

Freight Charges **INCLUDE** lift gate, but **DO NOT INCLUDE INSIDE DELIVERY**. Purchaser must have the required manpower to remove the freight from the lift gate. If purchaser requests any additional services from the freight carrier at the time of delivery, Purchaser is responsible for those charges. Please contact your account manager for other delivery options and the fees associated with them.

**Purchaser's Delay in Shipping** Orders not allowed to ship within 10 days of original ship date will incur additional storage charges. Should purchaser delay the shipment so that it does not ship in the current year, purchaser will be responsible for the property tax associated with the order.

**Agreement to Inspect & Report Damage** All items leave Kaemark in brand new and working condition. It is possible for items to be damaged during shipping, the purchaser is required to do a detailed inspection of boxes and goods upon delivery. Any damage must be reported to your account manager immediately, but in no event later than 48 hours. Use the packing slip as a reference. All damages or the appearance of damage on the packaging must be noted on the delivery driver's paperwork prior to signing for the order. Replacement goods cannot be ordered without notation of damages on the shipping documents. Take pictures of the damages, including the packaging and product so that your claim can be processed. NMFC regulations allow only 4 days to report concealed damage to the carrier, so you must report any damage promptly. Failure to timely report damage, may result in additional fees to purchaser for replacement and freight costs. Kaemark is not responsible for any damages not reported to the account manager within 48 hours of delivery. If purchaser uses their own carrier then purchaser is responsible for all risks, freight insurance, reporting to the carrier, etc.

## RETURNS/ REFUNDS/EXCHANGES

**Warranty Returns-** If the warranty applies (see warranty section) only defective parts will be replaced. Labor costs are not covered. All defective merchandise must be returned to Kaemark to receive warranty credit. All freight costs on warranty issues that occur (and Kaemark notified) within 30 days of delivery will be the responsibility of Kaemark in both directions. After 30 days of delivery, the purchaser is responsible for the freight to return the defective products to Kaemark for the remainder of the first year. After the first year, purchaser is responsible for all freight (both to and from). Warranty applies only to original purchaser and is not transferable. Pictures may be required as evidence of the defective part. Should purchaser have to return an item or component that is still under warranty, Kaemark will send a Call Tag with an RMA (Return Merchandise Authorization) reference number. Purchaser must reference the RMA reference number on the outside of the box prior to returning. The items must be received back to Kaemark within 45 days of the receipt of the RMA to receive credit. **No credit will be issued after 45 days.** To ensure timely return of defective parts, in some cases, Kaemark must charge before sending out a replacement part, and once the defective part is returned, purchaser will be refunded the original charge.

# TERMS & CONDITIONS

**Non-Warranty Product Returns-** Non warranty products must be returned within 30 days of delivery. Kaemark must receive the product in un-used and new condition and in its original packaging. Purchaser is responsible for freight. A 3% transaction fee and a 20% restocking fee will be charged for all returns. This amount will be deducted from the refund. An RMA Number is REQUIRED for all returns. Before shipping the product, contact Kaemark at 979-542-3651. to receive your RMA number. Please note that Custom and Non-Stock items are not returnable and not refundable.

**Exchange.** If an exchange is requested due to purchaser's mistake, purchaser is responsible for all freight charges. Prior shipping the new product, purchaser is required to pay for the exchanged item. Upon Kaemark's receipt of the returned item in new condition, purchaser will be refunded the amount paid for the replacement. Restocking fees may apply. Please note that Custom and Non-Stock items are not returnable and not refundable.

If purchaser requests an exchange of equipment due to Kaemark's mistake, Kaemark will pay for the freight charges associated with the return. Purchaser is still required to pay for the new equipment. Once Kaemark receives the returned product in new condition the payment will be refunded.

**Non-Stock Orders are Non-Returnable/ Non-Refundable.** Non-Stock goods are defined as goods not stored in the Kaemark distribution center. Non-Stock goods are not returnable and non-refundable.

## **CUSTOM PRODUCED GOODS OR SPECIAL ORDER ITEMS are Not returnable/Not Refundable**

The typical timeline to manufacture custom goods is 8 to 12 weeks upon order receipt. This timeline is an estimate because many factors outside of Kaemark's control may affect the timeline.

**Upon placing an order, purchaser acknowledges and represents that all line drawings, dimensions, color selections, laminates etc....have been reviewed and approved.**

Special Order Items or Custom Goods cannot be changed or canceled after 5 business days.

Changes to orders "in-process" may incur additional charges.

Deposits are non-refundable once material purchasing and production have begun.

## **LIMITED WARRANTY**

Kaemark's Warranty for its products is limited to the original purchaser and to the remedies of repair or replacement (no Labor) constitute the exclusive remedies available under this Warranty. All other remedies or recourse which might otherwise be available are hereby waived by the Purchaser. Purchaser understands that no cash refunds will be made and Kaemark and its Resellers are not responsible for any labor costs associated with replacement.

Kaemark and its Resellers will have no further obligations or liability for damages arising out of or in connection with the use or performance of the product, including, without limitation, damages for personal injury and/or economic losses. In NO event shall Kaemark and its Resellers be liable for consequential or incidental damages resulting from the breach of any implied or express warranties. Any applicable implied warranties including warranties of merchantability and fitness for a particular purpose are hereby limited in duration to the warranty periods for the product.

The warranty shall not come into effect and Kaemark will have no obligations under this warranty, unless and until Kaemark and its Resellers are PAID in FULL for the products to be warranted hereunder. Once full payment is received the warranty period begins to run from the date of shipment from Kaemark's warehouse (FOB Giddings)

All Savvy products have a limited warranty for a period of one year except for the hydraulic pumps which have a two-year limited warranty.

All Kaemark products are warranted for a period of one year except for the following:

- The hydraulic pumps sold as HYDBASE-CR, HYDBASE-5S, HYDBASE-FR, and HYDBASE-FS carry a limited warranty of 2 years unless condition/damage falls under the warranty exclusion.

# TERMS & CONDITIONS

- The hydraulic pumps sold with the following chair tops: SO-60M, SV-60, GL-60, EZ-60, AM-60, PA-60, or a SQ-60 that include a H1-B, HS10-GB, HS10-G, HS10-FMB, H1-C, HS10-FR, HS10-SQ, HK-10GB, H26-G, H26-C, HK10-AS, or HK10-C base carry a sliding scale limited warranty of a percentage of the original price to purchase a new pump unless a warranty exclusion applies:
  - Years 0 to 2 – 100% warranty
  - Years 2 to 3 – 75% warranty.
  - Years 3 to 4 – 60% warranty
  - Years 4 to 5 – 45% warranty.
  - Years 5 to 6 – 30% warranty
  - Years 6 to 7 – 15% warranty
- Hydraulic pumps sold with all other Styling or All-Purpose Chair Tops that include a H1-B, HS10-GB, HS10-G, HS10-FMB, H1-C, HS10-FR, HS10-SQ, HK-10GB, H26-G, H26-C, HK10-AS or HK10-C carry a sliding scale limited warranty of a percentage of the original price to purchase a new pump, unless a warranty exclusion applies:
  - Years 0 to 2 – 100% warranty
  - Years 2 to 3 – 60% warranty.
  - Years 3 to 4 – 40% warranty
  - Years 4 to 5 – 20% warranty.
- Reclining back mechanisms carry a limited warranty of 2 years for all-purpose and shampoo chairs.
- Dryer motors and hoods are warranted for one year except when failure is due to NOT changing the dryer filter every 4-6 months.
- The Kaemark 3/4" Kurative™ anti-fatigue mats have a 5 year sliding scale warranty by the original manufacturer for i) "Wear-through" of top elastomeric surface; and ii) Separation of elastomeric skin from foam core, from normal use, as outlined in the product literature. In addition to the warranty exclusions outlined below, the MAT WARRANTY DOES NOT COVER punctures caused by stiletto heels or damage caused by sharp floors. The limited warranty is a percentage of the original purchase price to purchase a new mat, unless warranty exclusions apply.
  - Years 0 to 2 – 100% warranty
  - Years 2 to 3 – 60% warranty
  - Years 3 to 4 – 40% warranty
  - Years 4 to 5 – 20% warranty

Warranty Exclusions. Kaemark's warranty obligations shall not apply to defects caused by ordinary wear and tear, insufficient maintenance or improper operation or use. This warranty does not extend to any products: (a) that have been subject to misuse, neglect, abuse, improper storage, accident (other than an accident caused by the product itself), or that have not been properly maintained; (b) that weight restrictions have not been adhered to (c) that have been modified by any Third Party; (d) that have been disassembled, serviced, or reassembled by any Third Party, (e) that are improperly plumbed or installed, [plumbing or electrical work must be performed by licensed professionals or warranty is voided] (f). that have damage caused by discoloration, fading, staining of vinyl or laminates, and (g) that have damage caused by accident, fire, lightning, acts of God or other hazards outside of Kaemark's control.

Staining of equipment is not covered under warranties and is considered normal wear and tear. The use of permanent hair color in salons creates the possibility of permanent stains. Stains can be reduced by the immediate cleaning of contacted materials but are not warranted when they do happen. Please keep this in mind when making your vinyl choices. See Kaemark's Care of Products <https://kaemark.com/pages/warranty-care>

EXCEPT AS EXPRESSLY SET FORTH IN THE MANUFACTURER'S LIMITED WARRANTY ABOVE, KAEMARK DISCLAIMS ALL OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, IN FACT OR IN LAW, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Products Not Manufactured by Kaemark (excluding Savvy Products). Kaemark and its Resellers are not responsible nor make any representations concerning products that are NOT manufactured by Kaemark. Purchaser must look to the manufacture of the product for any warranty on the product.

PRODUCT CARE AND RESTRICTIONS- Purchaser acknowledges reviewing the Product care restrictions. (Please note that improper care and preventative maintenance of your products may void any warranty.) <https://kaemark.com/pages/warranty-care>

# TERMS & CONDITIONS

## Care and Restrictions are outlined below:

**Weight Restriction for Kaemark U.S. Made Chairs:** Static Weight capacity 300 lbs. for dryer, shampoo, and styling chairs. NOTE: Make sure that the chair is in the lowest position for the customer to initial sit and to get out of the chair. Stylist may consider assisting client out of the chair to avoid client pushing outward on the arm rests

**Weight Restriction for Kaemark Import/Savvy Chairs/Other Manufacturers:** Static Weight capacity 250 lbs. for dryer, shampoo, and styling chairs. NOTE: Make sure that the chair is in the lowest position for the customer to initial sit and to get out of the chair. Stylist may consider assisting client out of the chair to avoid client pushing outward on the arm rests.

**New Chair:** Before putting hydraulic unit into service, pump unit all the way up and let it all the way down 8-10 times to ensure the shaft and seals inside have been properly lubricated. Occasionally hydraulic bases are in storage for a few months causing the oil from the pump shaft settle down into the pump. Pumping it up and down several times will re-lubricate the shaft and seals

## Continuing Preventative Maintenance & Care

- Perform regular maintenance on the hydraulic pump chairs. **EVERY TWO MONTHS** pump the chair all the way up and let it come all the way down 8-10 times every 60 days. This will ensure proper lubrication.
- **EVERY MONTH** check the nuts and bolts to the equipment because they can become loose or fall off during constant use. Tighten any loose bolt but do not overtighten. If the equipment seems to be wobbly or unstable, **STOP USE IMMEDIATELY UNTIL REPAIRED**, call Kaemark and a technician can assist you if required.
- If there is any part of the equipment, that is not functioning correctly or remains loose after performing the proper maintenance, **STOP USE IMMEDIATELY** and contact Kaemark for further instructions.
- When cleaning salon floors, be sure to pull the pump treadle up to set it in a lock position BEFORE moving hydraulic chairs. If you lift up on the chair top without locking the pump treadle you will pull the hydraulic shaft up from the pump allowing air to seep into the pump. Should this happen, you will need to pump the chair all the way up and continue pumping three or four strokes while it is up to "bleed" the air out of the unit. Let the chair all the way down and pump it all the way up again several times and your hydraulic pump should function properly. Please note that even if the pump treadle is in locked position, it does not lock the chair top to the base so do not lift the chair top only because the base may fall out.
- Detergents should never be used on a regular basis for normal cleaning. Kaemark recommends repeated rinsing with clear water after any cleaning procedure. This includes citrus based and powder abrasive cleaners.
- Direct contact with paint strippers will remove the print pattern from vinyl. Paint strippers are very corrosive. Take care to avoid skin contact by wearing protection.
- Steel wool, and industrial strength cleaners are not recommended for vinyl.
- Any lacquer solvent will cause immediate irreparable damage to the vinyl.
- Wax should never be used on any vinyl upholstery, as it will cause premature embrittlement and cracking.
- If flammable solvents such as alcohol, turpentine or mineral spirits are used for cleaning, then only small quantities should be applied in a well-ventilated area. Exercise proper care by advising personnel in the area and keep away from any ignition source. Always wear protective gloves.

## Plumbing

- Installation- check your local plumbing codes before installing. Kaemark cannot be held responsible for knowing the local plumbing codes in all jurisdictions. Any plumbing not performed by a licensed plumber will void the warranty, if any.
- Faucet Assembly-Teflon tape (not supplied) or other approved pipe sealant must be applied to all connections and copper tubing. These connectors and tubing can become loose in shipping. Tighten and inspect all connections before the water is turned on.
- Leaks can affect your pipes and water pressure and can cause damage to your facility if not addressed immediately. MONTHLY you are responsible to check for leaks by inspecting your hoses, cabinets, and surrounding areas. Look for signs of moisture, such as puddles of water, water marks, a musty smell and mold growth. MONTHLY check your hoses for wear and tear and replace if needed.
- If you have extremely cold weather, you can take precautionary steps to reduce the risk of freezing. You may leave your cabinet doors that house the pipes open to allow warm air inside. Allow the water to trickle from each faucet when temperatures are extremely cold.

# TERMS & CONDITIONS

## Electrical

- All electrical work must be done by a licensed electrician. Do not attempt to make any repairs or modifications on your own. Any electrical work not performed by a licensed electrician will void the warranty, if any.
- Power Strip: DO NOT connect the power strip to an ungrounded outlet. DO NOT use the power strip with 2-wire extension cords or adapters. This power strip is designed for indoor use only. Install the power strip away from heat-emitting appliances such as radiators or heat registers. Do not install where excessive moisture is present. Do not plug extension cords into the power strip. Do not drill into any part of the housing or open the housing for any reason. There are no user-serviceable parts inside.
- Do not plug in equipment that draws more total amps than your Power Strip's amperage rating or you will trip the circuit breaker.

## Laminate Surfaces/Cabinetry

- All cabinetry and millwork must be properly installed as required for safety and code. Units attached to the wall must use proper anchors and/or requires proper blocking. If you have any doubts, make sure a professional carpenter is doing the work.
- Acidic or abrasive cleaners can damage laminate surfaces; do not use them.
- Drain cleaners containing lye will permanently damage any laminate surface. If you spill a drain cleaner, wipe it up immediately and rinse several times with water.
- Hair, textile, and food dyes can cause permanent stains. If dye should happen to spill, wipe it up immediately with dishwashing detergent or an all-purpose cleaner.
- Never place pots or dishes directly from the oven or burner on an unprotected laminate surface; such extreme heat can cause cracking or blistering.
- Do not work with oven cleaners on an unprotected countertop. Wipe spills away promptly and rinse several times with water.
- Rust removers contain harsh chemicals which will quickly cause permanent damage. If a spill occurs, wipe off all residue immediately, wash thoroughly with soapy water and rinse several times.
- Steel wool and other abrasive pads will damage laminate. Do not use them for cleaning and don't store steel wool pads on your countertop; the metal can rust and leave stains.
- Toilet bowl cleaners contain harsh chemicals that can cause permanent damage. If spills occur, wipe up immediately, wash surface with soapy water and rinse several times.
- Shampoo Bowls
- Use a Non-Abrasive cleanser, a soft cloth and rinse well with plain water. Using abrasive cleaners will dull the finish and may make the bowl more difficult to clean and may cause cracking.
- Do not put weight on the bowl or drop metal, hard plastic or ceramic objects in the bowl because this could cause the bowl to crack. Kaemark is not responsible for bowl cracking.

## ABOUT PROPOSITION 65 FOR CALIFORNIA CUSTOMERS ONLY

### What is Proposition 65?

Proposition 65, officially the Safe Drinking Water and Toxic Enforcement Act of 1986, is a law that requires warnings be provided to California consumers when they might be exposed to chemicals identified by California as causing cancer or reproductive toxicity. The warnings are intended to help California consumers make informed decisions about their exposures to these chemicals from the products they use. The California Office of Environmental Health Hazard Assessment (OEHHA) administers the Proposition 65 program and publishes the listed chemicals, which includes more than 850 chemicals. In August 2016, OEHHA adopted new regulations, effective on August 30, 2018, which change the information required in Proposition 65 warnings.

We are providing the following warning for products linked to this page:

**WARNING:** Kaemark products can expose you to chemicals including Wood Dust, which is known to the State of California to cause cancer or other harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

**WARNING:** Kaemark products may contain chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

### Why does Kaemark include this warning on products?

Kaemark complies with all pertinent laws, including Proposition 65. We have chosen to provide a Proposition 65 notice to be compliant. The warning does not mean that Kaemark products will cause any harm. Similarly, a Proposition 65 warning does not mean a product is in violation of any product-safety standards or requirements. In fact, the California government has clarified that "the fact that a product bears a Proposition 65 warning does not mean by itself that the product is unsafe." The government has also explained, "You could think of Proposition 65 more as a 'right to know' law than a pure product safety law." See <https://www.p65warnings.ca.gov> for additional information.

### Where can I find additional information?

The California Office of Environmental Health Hazard Assessment, OEHHA, has an in-depth webpage at <https://oehha.ca.gov/proposition-65>, which explains the law and offers a list of all the chemicals and materials. To make a specific inquiry, you can call the Office of Environmental Health Hazard Assessment's Proposition 65 Implementation Office at (916) 445-6900 or send an email to [P65.Questions@oehha.ca.gov](mailto:P65.Questions@oehha.ca.gov).
